Dear Parents/Guardians,

Below is the Harrington Remote Learning Schedule, which will begin Wednesday, March 18. Your child can follow this schedule by signing on to their teachers' Google Classroom at the allotted time. The teacher could have an assignment, a video lesson, and/or a presentation. Teachers will also be available during their allotted time to interact with your child through email, Google Classroom, and even through Google's video conferencing app, Google Meet.

Your child will follow the schedule and complete assignments on a timely basis. Teachers will also assign supplemental activities to be completed after the structured day (9:00am – 11:45am).

In addition to the subjects listed on the schedule, our support staff such as counselors, reading specialists, speech therapists, and the special education case managers will be available from 12:30pm – 3:00pm to work with your child. Additionally, teachers may make themselves available during those hours for additional support.

Our Harrington Teachers are fully prepared to deliver high-quality remote learning and I commend them for their efforts. I am fully confident in our teachers' ability to support our students through these difficult times. Please know that Mr. LaMorte, Mrs. Roberts, and I are available to answer any questions you may have and to ensure that Harrington's Remote Learning is successful.

Sincerely,

Ryan Caltabiano

Principal
