BUDGET HEARING

It is the policy of the Board that the annual budget proposal, once adopted, represents the position of the Board and all reasonable means shall be employed by the Board to present and explain that position to all residents and taxpayers of the community.

Each member of the Board and each district administrator shall be thoroughly familiar with and understand the need for each proposed expenditure so that they can answer any question directed to them.

The proposed budget, as accepted by this Board, shall be set forth in detail using the "Annual School Budget" form of the State Education Department and shall be made available to the public at the places required by law.

A popularized form of the budget to enhance the understanding, by presenting in a simplified manner the planned expenditures and anticipated income, may also be prepared annually. This report may be sent to each resident. In order to prepare for the budget presentation, the Board will meet with interested community groups upon request to explain the budget.
